

THIS WORLD DOWN SYNDROME DAY
LETS CELEBRATE SOME OF

∴∴∴∴
KDSP'S
∴∴∴∴
RISING STARS

2022 has been a year of immense growth for KDSP. While we expand our KASHTI, it seems like perfect time to appreciate our real stars.

Whether it be outstanding performances in the classroom or blazing through their therapies, these individuals have inspired not only their peers but us too.

As they hit every new milestone, we here at KDSP take one step closer to our dream of building a more understanding and inclusive Society.

Ali Naeem

Ali Naeem is a 2 year old boy that was diagnosed with pneumonia. This emergency case was sent to NICH but the doctors were unable to cater to him due to the lack of space and facility. Through KDSP he was shifted to AKUH's ER. Where he was put on a ventilator and was offered 30% welfare. Ever since, it has been a privilege to be able to see Ali's growth while he regularly attends therapy and EPEP classes at KLC.

Amna Bibi

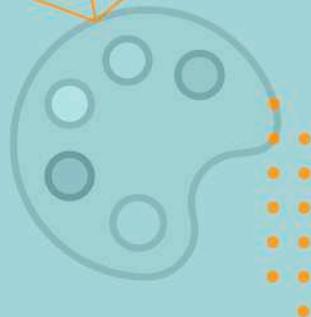

Amna Bibi is a five year old child from Islamabad who was diagnosed with ASD Secumdum and recommended immediate procedure through device closure. Given her health's fast paced deterioration and life threatening condition, her parents employers reached out to KDSP for financial help. We sponsored Amna's entire procedure and are happy to see her live a life full of hope and health.

Muhammad Daiyan

Daiyan – August 2022-2023 Batch: Muhammad Daiyan had a history of fits and started to sit only right before EPEP began. Because he had only achieved sitting a month prior to EPEP, he was taken on a trial basis since he would not have qualified the following year due to his age. He performed activities with assistance during the first two months and had trouble focusing in class. However, his progress has been tremendous. He now actively tries to work during station time, looks around to observe, responds to his name and enjoys nursery rhymes!

Daneen Ali

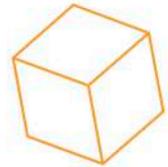

Daneen Ali – May 2022-2023
Batch: Daneen Ali had little to no sitting tolerance when she started at EPEP. Though quite expressive from the beginning, she refused to sit during circle time and one-on-one. Currently, she interacts with all her peers and is the first to finish all her tasks with great precision!

Zikra Ibrahim

Zikra joined the Education for Life program in May 2022. Zikra moved to Karachi five years ago from Matli in the Badin District of Sindh and had never received formal schooling. For this reason, she was initially shy and introverted. Ever since she joined Education for Life however she has slowly blossomed into a confident, social and cheerful individual. She has demonstrated incredible talent for painting and can use a range of mediums to express her creativity. She also loves dancing and playing the drums and looks forward to Music and Movement session on Saturdays. Since joining KDSP, Zikra has also fostered a friendship with her fellow peer, Eman Arif! Both of them look forward to meeting each other every day and love to paint, draw and dance together. We love having Zikra on board and hope to see more of her artistic creations.

Danish Wali

Danish is a confident young man. He loves meeting new people and is always the first one to greet others with a smile, a handshake or a big hug. He loves participating in different sports such as football and cricket – and ensuring that he's the one holding the team trophy at the end. He believes strongly in staying fit and healthy and loves all the physical fitness classes in the Education for Life program. He is excellent at taking initiative and trying new things with a positive attitude. He particularly loves photography class and has created an amazing portfolio of landscape photography which will be displayed in our photography exhibition at the end of the year. His special talent includes creating his very own dance routine and letting loose while on the dance floor!

Azeem Nadeem

Azeem is a natural when it comes to block printing. He also excels at the sewing and stitching class and has a real eye for detail when it comes to completing a running stitch. The strawberry keychain he makes both in the sewing class and at home are a best seller at the KDSP shop. He loves to take selfies and make videos with his friends, Rahim and Danish, in the Education for Life photography classes.

KEEP OUR
KASHTI AFLOAT

Here at KDSP it brings us joy knowing that we are playing our part in shaping a better world for these talented and inspiring individuals.

PLAY YOUR PART!

We look forward to your support in helping these individuals in achieving their potential.
